Cathie, Rose and Trish:

I hope this finds you well. I was just speaking with Neil Drucker, CCed here, and it sounds like the Hollywood Rec Center will be ready to open in just a couple of weeks. Exciting! We are really looking forward to it.

Since the Council will be on recess and CM O'Farrell will be out of town for the first few weeks of July, we'd like to touch base now about setting a date/time for the grand opening at the end of July.

I am CCing my colleague Dave Cano, the Councilmember's executive assistant. Here are a couple of dates/times that work for us. Do any of these work for RAP?:

**Wed 7/29 - 2 PM**

**Thurs 7/30 - 3 PM**

Please let us know... we are very excited!

Sincerely,

**Dan Halden**

Cathie,

There are several items that are not in compliance in the filter room and the slide did not pass inspection. There are issues with the phones and internet. Frank may have a better idea if the pool will be ready by the end on July for the dates selected. It will take less than a week for Aquatics to move into the facility. Can you respond to the Council Office's request?

Good morning Rose,

I hope you had a great Fourth. We still need to pick a date for the opening of the Hollywood Rec Center Pool. As previously discussed, the Councilmember would like to hold the grand opening the week of July 27th.

Please let me know what date(s)/time(s) work for RAP. I am also CCing Shashi Bhakta and Neil Drucker of BOE who can advise on the particulars of the construction process. My understanding is that construction is complete but that there are a few final logistical items to complete over the next week or two.

Please advise as soon as possible. Thank you!

Hi there,

There has not been a confirmed date for completion of the project. Aquatics will need 3 - 4 days to move equipment and supplies into the facility as well as train staff on emergency response procedures specific to Hollywood. The slide has not passed DOSH approval as well. Before a set date for the grand opening is determined we will need to have a better idea of the completion date, slide reinspection, and approximately 4 days for Aquatic staff to train and move into the facility. Shashi will need to provide a projected date for when the facility should be ready.

Thanks,

Trish

Thanks for the info Trish.

Dave, could you please provide some additional dates/times the first week of August in case the final release date is too close to 7/29. It's important that our facility staff be prepared and equipment be in place. We don't want to open merely for the purpose of having a ribbon cutting and then close again to get staff and equipment in place.

Thanks!

Dan and Trish,

I wanted provided you with update on our project. The LA County Health inspector approved the pool. We will be meeting with the contractor to evaluate the timeline for the remaining punch list items, mainly DOSH inspection and the Temporary Certificate of Occupancy. We will

be also talking to your lock smith to prepare for lock cores change out. I will provide further up date tomorrow.

Thank you.

Dan and Trish,

We are moving forward to apply for the Temporary Certificate of Occupancy (TCO) tomorrow. Also, we are recommending to the Bureau of Contract Administration (BCA) of certain parts of the facility to be "substantially complete" and ready for the use. BCA will issue "Partial Completion" statement. This will allow Department of Recreation Parks to occupy the Pool Building (Bath house) and the Pool as their schedule permits.

The Water Slide punch list is expected be completed by end next week. We will request DOSH/CAL OSHA inspection next week. The water slide will be available for use after QSI inspection clears it. The time line is dependent of availability of the QSI inspector.

The remaining punch list items will be continued to worked on to secure the Certificate of Occupancy (COO).

I hope this helps.

Thank you.

The pool and bath house are ready but the water slide may not be ready as it's dependent of QSI Inspectors availability. The punch list items for water slide will be completed by next week and ready for QSI inspector to clear it. We'll schedule it ASAP and let you know next week.
